Re: MACSME Supplemental Application

Thank you for your application to the Masters and Credential in Science and Math Education program (MACSME) at the University of California, Berkeley Graduate School of Education. It is important to note that to apply to MACSME, you must complete two applications: (1) the Online Graduate Division Application for Admission and Fellowships and (2) the MACSME Supplemental Program Application.

1. On a separate document, respond to the following questions: What is your definition of equity, and how do you think it will influence you as a teacher? Describe and analyze a situation that involved a dilemma related to equity, and how you worked to address it. (Limit: two page response.)

2. Video: Submit a 1 to 4 minute video (on DVD or uploaded to a video sharing website) of yourself explaining or teaching something that is important to you.
